Soft Skills   Problem Solving, Adaptability, Communication, Team Collaboration

EXPERIENCE

Python Developer   May 2023 - Sept 2023
Grapesgenix Technical Solutions   Thrissur, *Kerala*

- Achieved a wonderful growth for Grapesgenix using Python Web development skills.
- Led student group which led to the completion of their final year projects and improvement in my web development skills.
- Developed Iot based smart cart, Income-expense tracker, Employee management system as the final year projects for the students.

PROJECTS

Iot Smart cart. Built a iot based smart cart which helps users to shop products pay the bill without any time delay. The user can exit the mall whenever the product is added in the cart.

Income-expense tracker. Build a project that helps to track the income and expenditure of the user according to their income and expense

Employee management System. Build a project that helps to track the employee details of the company. It also helps managing the employee details.

EXTRA-CURRICULAR ACTIVITIES

- Volunteering: I actively engage in community service or volunteer work, demonstrating my commitment to social responsibility and showcasing my ability to work in a team environment.
- Sports: I am a dedicated member of a sports team, which has helped me develop strong teamwork, discipline, and commitment.

LEADERSHIP

- School Chairman for Higher Secondary Education
